

## **Internship Opportunity: Part Time Wildlife Rehabilitation Intern**

### **Program Description**

This internship at **Walden's Puddle, Wildlife Center of Greater Nashville** will provide on-the-job training in basic wildlife rehabilitation skills. Interns in this program will work part time under the supervision of professional wildlife rehabilitators and trained wildlife caregivers.

Skills learned will include wildlife species identification and safe handling techniques, nutrition and general care of native wild species and the rehabilitation and care of sick, injured and orphaned wildlife. Interns will assist with animal care, wildlife nursery, and care of our education animal collection

### **Intern will be involved in all aspects of wildlife care including but not limited to:**

- Basic wildlife species identification
- Wildlife Nutrition
- Preparing food/diets for a wide variety of species
- Wildlife care and disease prevention
- Cleaning and maintaining caging for a wide variety of wildlife species (primarily mammals, birds, reptiles)
- Proper disinfection with respect to wildlife health and disease transmission
- General support tasks
- Assisting the staff with treatments
- Learning how to look for and recognize signs of illness in birds, mammals and reptiles
- Handling and Restraint
- Becoming proficient with safe handling and restraint of wild animals during treatments and all aspects of general care
- Orphan Care
- Feeding and providing care for young orphaned wildlife

### **Commitment**

Participants in our part time internship program will be scheduled 2 (10 hour) days per week for a minimum of 10 weeks.

## **Requirements**
